EJAF delivers customized software and cloud solutions tailored to meet your unique needs and drive your success

Whether launching a new business or enhancing an existing one, EJAF Team is dedicated to tailoring the right software and equipment to suit your specific needs and budget.

WE OFFER SOFTWARE AND CLOUD SOLUTIONS THAT SATISFY YOUR NEEDS.

Whether establishing a new business or configuring a current one to be more efficient and cost-effective, Ejaf Team is dedicated to configuring the right software and equipment to meet your needs and budget.

OUR MISSION

Empowering businesses with innovative solutions, streamlining their focus on core strategic goals.

OUR VISION

To design sustainable and adaptable systems that provide businesses with reliable, long-term solutions.

OUR MARKET SECTOR

Our comprehensive tool suite is designed to meet your business's unique needs across any industry. Enhance efficiency in public services, healthcare, and transportation, and drive growth in finance, telecom, and education sectors. Partnering with Ejaf will elevate your operations with our customized solutions.

IT SERVICES

We specialize in installing, optimizing, and configuring your network or server to improve uptime and security, reduce costs, and, most importantly, prevent disasters with our managed backup solutions.

NETWORK INFRASTRUCTURE

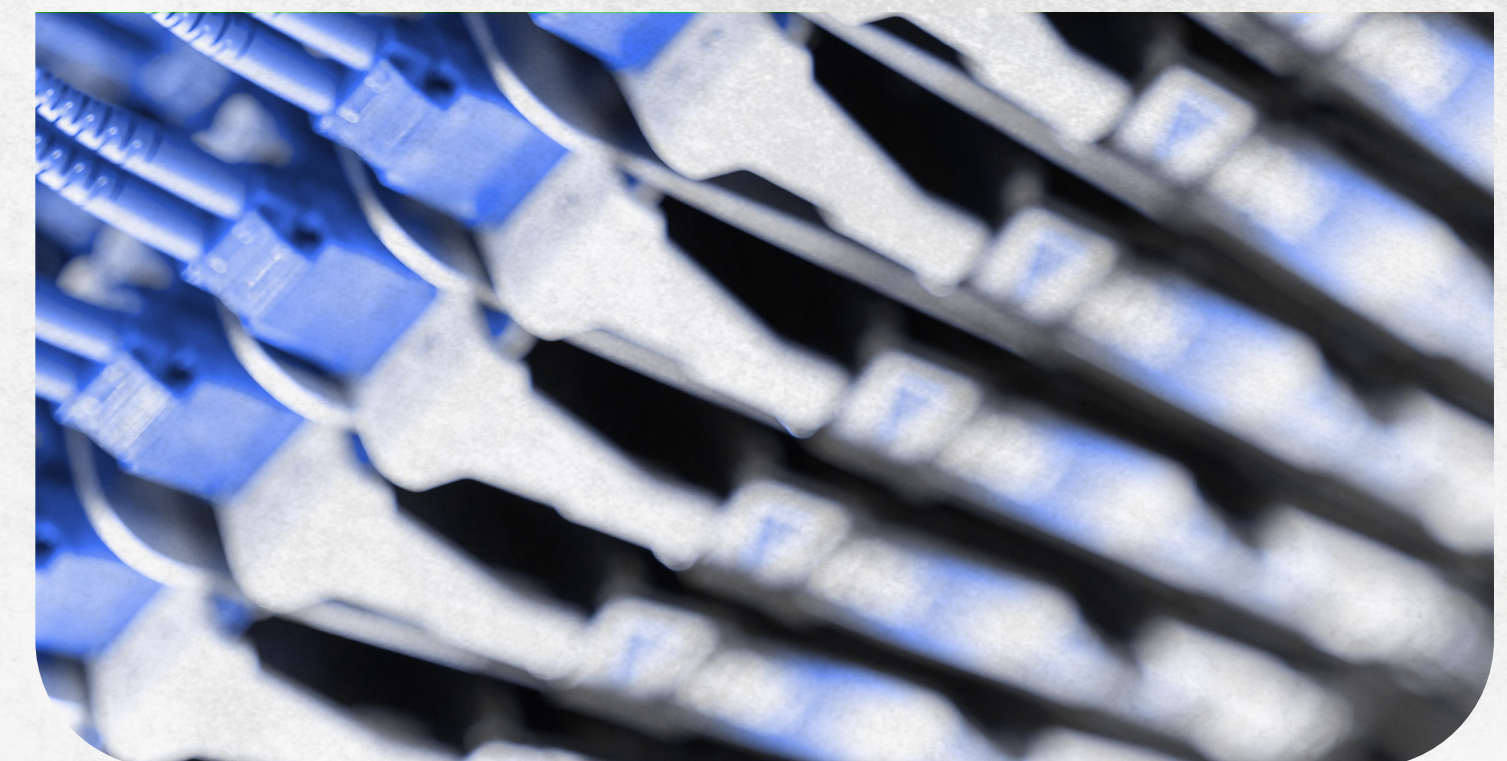

Trust in Ejaf's expertise to ensure a seamless and worry-free network setup process.

NETWORK SOLUTIONS

Ejaf's expert will provide you with a variety of services that enhance your network security and performance including:

- Network Penetration Test: Ejaf's team will discover vulnerabilities in your network and fix it.
- Fortinet Network Security: Provides you with next-gen firewall, and advanced threat protection.
- Wan Optimization: reduces the amount of data that needs to flow back and forth across the WAN by using caching and data compression techniques.

WEB DEVELOPMENT

A well-designed website effectively communicates a business's ethics, values, and services, serving as the first point of interaction for clients. To ensure your website operates smoothly and intuitively, rely on our experienced team to deliver optimal results.

DESKTOP & MOBILE APPLICATIONS

As applications have become increasingly vital for businesses, Ejaf's experienced programmers develop custom solutions that perfectly align with your requirements and goals.

SUPPORT

With the expertise of Ejaf Technology's skilled engineers, we deliver comprehensive hardware and software support, Driving your focus on strategic business priorities.

SOFTWARE

Ejaf Technology delivers tailored software solutions to address your business's specific needs:

- **Odoo** - Business management software ERP & CRM.
- **Pixel Point** - Restaurant management.
- **iiko** - Restaurant management.
- **Hotelogix** - Hotel Management System.
- **The One** - Accounting, Sales & Inventory System.
- **WinSoft** - University & School Management System.
- **The One** - Real Estate Management

Whether you operate a real-estate agency, retail business, restaurant, e-commerce firm, or factory, Odoo's robust features cater to both small and large enterprises. Its integrated solutions streamline operations, enhance data management, and drive overall business efficiency, delivering customized solutions tailored to your specific requirements.

Drawing on over 12 years of expertise and our status as an Odoo Gold Partner, Ejaf Technology's expert team is uniquely equipped to address your workflow needs. We harness Odoo's capabilities to meticulously monitor every detail, ensuring streamlined workflows, comprehensive data management, and enhanced business efficiency

TERMINAL (POS)

Our point-of-sale (POS) systems are tailored to meet the unique needs of your business, whether it's retail, dining, or grocery. They're designed to streamline transactions, making the process more efficient for you and your customers, ensuring a smoother sales experience. With our advanced POS hardware, you can enhance your sales effectiveness and keep your business moving forward.

- Touch Screen POS.
- Receipt Printer.
- Cash Drawer.
- Mobility & Scanning.
- Barcode Printer.
- Barcode Scale.

DEBIT CARD TECHNOLOGY IN GAMING AND AMUSEMENT

As the authorized agent of InterCard, we specialize in advanced cash management and point-of-sales systems tailored for the gaming entertainment industry. Leveraging cutting-edge POS systems, we enhance market and amusement city operations with robust cash handling and loyalty programs.

SECURITY SYSTEMS

Ejaf Technology offers you a reliable and high-definition system of surveillance cameras, with cloud storage, making sure there are no blind spots, and with the feature of monitoring the cameras from your home.

CCTV

Equip your business with our advanced CCTV surveillance system, featuring seamless cloud storage integration to ensure complete coverage without blind spots.

DATA PROTECTION

Many think that data protection is just creating a backup version of their data, but data protection takes extra steps eg. malware protection, security patches, encryption, and access control.

Ejaf's team handles all of these tasks, and in addition to that Ejaf provides you with disaster recovery service, which is to ensure that you can respond to a disaster or other emergency that affects your information systems –and minimize the effect on business operations.

Ejaf offers you a data access control service, it's not just about keeping unauthorized people out; it's also about managing and monitoring the flow of people and assets within a controlled area.

SMART HOME

Elevate your living and working spaces with our cutting-edge smart products, designed for both homes and businesses. Experience unparalleled convenience and luxury at competitive prices, with the ability to control lighting, climate, and entertainment through your phone.

SOUND SYSTEM

Managing a restaurant, conference hall, or store, sound distribution is crucial for enhancing client experiences. At EJAF, our experienced team will design and implement an exceptional sound system customized to your needs.
